

*Smol Peners*

~~Bitcoin~~ A Peer-to-Peer Electronic Cash System

Satoshi Nakamoto  
sato

**Abstract.** A purely peer-to-peer system would allow online payments to be sent directly from one person to another without going through a financial institution. Digital payments are not new, but the main benefits are lost if a trusted central authority is required to prevent double-spending. We propose a solution to the double-spending problem using a peer-to-peer network. The network timestamps transactions by adding them to an ongoing chain of hash-based proof-of-work, making it difficult to change without redoing the proof-of-work. The longest chain is the proof of the sequence of events witnessed, but proof requires no communications other than the effort of CPU power. As long as a majority of nodes are honest, they will cooperate to attack the network. The network itself is distributed, and the effort is shared on a peer-to-peer basis, and the proof-of-work is the longest proof-of-work.

# MISSION STATEMENT

---

Our mission is to provide Penis art loving degenerates with the opportunity to own high quality wiener NFT's. We choose to make fun of much of the NFT hype that we have seen and grown to love over the past few years, whilst also showing people that it's possible to make unique one of kind digital artworks, made with thought and love.

We aim to create a community that can effectively command the strategic direction of our project. We'll use a DAO, alongside some other cool sounding tech words, to experiment with how an art project can work effectively and in a sustainable way, without relying on a central entity or person.

Oh, and did we mention that we will work with various Men's health charities during our project's life, in order to ensure that we give something back to all the proud Penis holders of the human race? Cool right!

Basically, this is meant to be fun. So if you're boring and think cocks are immature, best you stop reading now, as it's only going to get worse...

# SMOL TEAM

Who are we? Well that's a great question. Yes these are pseudonyms and yes we know anonymous teams are so 2021, but if we were to publicly associate ourselves with this project it would impact our IRL commitments.

What we really are is a collective of builders, entrepreneurs, hodlers, degens, strategists and community experts brought together over a shared common goal. To poke fun at the state of the NFT world and celebrity cash grabs whilst raising money for a cause close to our hearts... and genitals.

We are your Smol Team.

# OFFERING

## SMOL MEMBER

The most humble and numerous of all Smol Peners. They are the foundation upon which our community is built. Many in number but still so few to own. All wonderful shapes and sizes to fit the needs of any and all penis art enthusiasts.

## MAGNIFICENT MEMBER

More complex and diverse than a Smol Member. They are special and rare. Aesthetically beautiful donges and a privilege to own. Their backgrounds create emotions of such depth that only the great artists of old were capable of evoking.

## GOLD MEMBER

The pinnacle of Pener, the upper echelons of phallic based art. Nothing quite like a lick of gold to turn the humble pener into something as rare and unique as a Rembrandt. Only the few may ever hold these glorious little peckers, maybe you'll be lucky enough to own one too.

We will offer 333 Smol Pener artworks for our genesis season 'THE BIRTH OF THE GIRTH'. The Smol Team will hold back 21 Smol Peners from the mint for marketing material, competition giveaways and rewards for those who helped us get to this stage.

**MINT PRICE**  
**0.333 Eth**

**ONLY 333**  
**SUPPLY**

**TOTAL PENERS - 333**

**SMOL MEMBER**

**284**

**MAGNIFICENT MEMBER**

**34**

**GOLD MEMBER**

**15**

# BLOCKCHAIN

We'll use the Ethereum network to launch our Smol Pener NFT's on.

We know it isn't perfect, but it works and we like it.

Anyway, Vitalik clearly has a Smol Pener, which also gives us confidence that Ethereum is the right choice.

We assume you guys already know about how blockchains are used to validate and secure your NFT and guarantee authenticity and provenance. So we won't bother going into detail. Also it's complicated so we will most likely explain it all wrong anyway.

# CHARITY

This is a fun part of the project. We like charities, they do good things.

Men's health is important to the Smol Team, because without happy men we don't have happy Peners. But also without happy Peners we cannot have happy men. Also let's be honest most women like happy Peners too, so everyone wins.

So, we plan on not being greedy assholes like some other NFT projects (yes we are talking about you Pixelmon you little buttholes) and offer a portion of the money we raise from the mint to a Men's health charity, voted by you our Smol Pener owners community.

Future sales of Smol Peners will incur a small curator fee from secondary sales, which again will be split with a Men's health charity chosen by the community. So that even when the minting has finished we can still ensure that Smol Peners will always be able to raise money for charities. Forever and ever.... kind of like herpes.

**We have 10% of all mint Eth raised going directly to charity.**

**We have a 2.5% ongoing curator fee that goes directly to charity**

# COMMUNITY

This project is going to be very much a community driven project. We aim to offer strategic direction of the project over to the community (assisted by the Smol Team) so that we can explore if it's actually possible to effectively create an art project that isn't controlled by a central entity/person.

All owners of a Smol Pener will have the ability to vote (One vote per Pener) for their favourite options presented by the Smol Team and guide us on how you want the project to work. The Smol Team will offer lots of different options, but you will be the ones that decide what the Smol Team does next.

Much of this will be discussed in our super exclusive private chat server, **THE GLORY HOLE PRIVATE ALPHA GROUP**. A place where only current owners of a Smol Pener will be allowed access. And just like the glory holes that your Daddy used to visit after a long day in the office, you need to have a Smol Pener to enjoy it, them be the rules.

# BENEFITS

So, what do you get for your hard earned Eth? Well, obviously you'll get a super awesome solicited cartoon dick pic NFT to do with as you please. Phone background? Twitter PFP? Birthday gift for your weirdly attractive older step sister that you know you shouldn't fancy but also kind of fancy? All perfectly acceptable use cases.

But there's more. You get access to **THE GLORY HOLE PRIVATE ALPHA GROUP**. You also get the ability to vote (one vote per Pener) with our DAO and be part of steering the strategic direction of the Smol Pener Project. You'll get drops, competitions, games and a bunch more surprises that we have planned. Also somehow web3 will be involved but we don't really understand what that is yet, but be sure there will be many Smol Peners in the web3 thing.

But wait there's even more... We want your Smol Peners to do more than just look pretty in a frame besides your bed, watching over you as you disappoint your partner sexually after a big night on the beers. We plan on using the Smol Peners for art exhibits in the real world (yes degenerates, some people still like seeing art that's not on a computer screen). We'll aim to commercialise your Peners and share any revenue generated with the Pener holders. We'll discuss this in more detail further down the track.

# CHALLENGES & RISKS

Your Smol Team cares about our Smol Peners and their owners. So it would be irresponsible for us to not mention there are risks to owning an NFT.

Firstly, there is a growing movement of little shits that are trying to steal NFT's using the 'right click, save as' method. Now obviously these people have big Peners and are inherently terrible people, but they can never truly steal your Smol Pener, because of the blockchain. It doesn't mean they won't try though.

Secondly, there's price. The Smol Team would love nothing more than to have the ability to make the floor price of Smol Peners moon to 100 eth. But we sadly have yet to learn such power. We can however do our best to make sure we use some of the Eth raised to build awareness of Smol Peners.

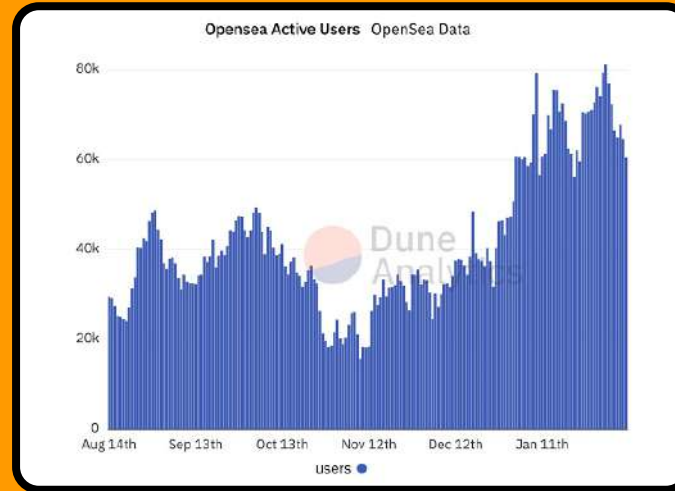

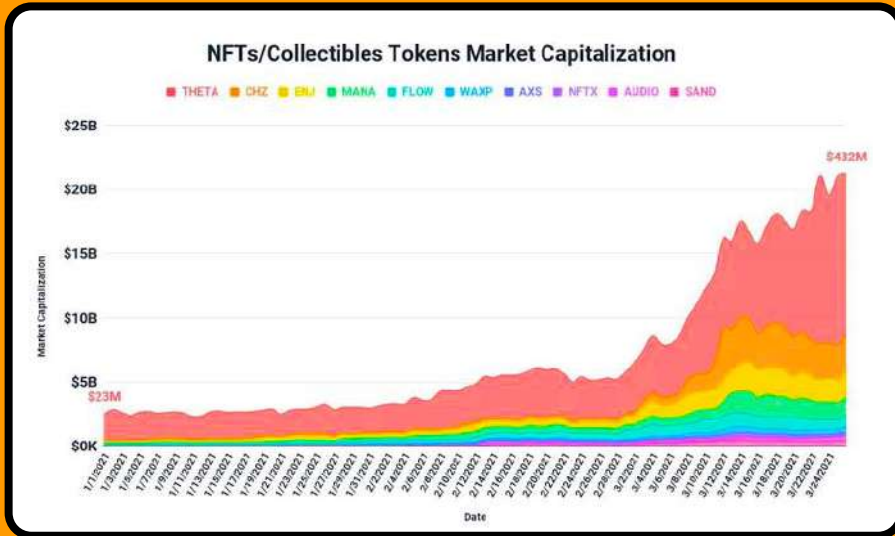

However, at the end of the day the community are the ones that have to be strong and not make bad trading decisions by selling their Smol Peners for low prices. If we all grasp our Peners firmly in our hands for a long time, more and more people will want to hold our Peners too, and hopefully the price goes up. But also maybe the price goes down? We obviously hope this doesn't happen as it will make us all very sad.

# MARKET

Interest in NFT's have grown insanely fast over the past few years. Also prices of NFT's and NFT trading platforms have also grown massively. Here are two graphs we lazily googled.

The Smol Team thinks that as long as the wider crypto market stays stable or rises then interest in NFT's will remain. If Bitcoin and the wider crypto markets tank into a horrible bear market, then we are all fucked anyway and will be back working at McDonald's, so who cares.

# ROAD MAP

## 2022 Q1

### SMOL PENERS SEASON 1 LAUNCH 'BIRTH OF THE GIRTH' (333 TOTAL)

- Glory Hole Private Alpha Group Launch
- Pener DAO Launch
- Charity vote and Announcement

## 2022 Q3

- Exclusive Smol Pener Merchandise
- 'Backgrounds' Launch
- Smol Peners' Big Raffle
- Website and Branding Update

## 2022 Q2

- Mystery Airdrop
- Smol Pener IRL Art Exhibit

## 2022 Q4

### SMOL PENERS SEASON 2 'THE SECOND CUMMING' LAUNCH

- 1/1 Custom Pener Merchandise
- Glory Hole Dinner and Charity event in London
- Pener Season 2 Art Exhibition
- Charity Donation

File name:

**BEYOND**

File No. SP2023

- Phat Peners' Launch
- Launch of 'Historic Pener Collection
- Pener DAO takes strategic control
- Smol Peners' Big Adventure Launch
- Penerverse Development
- Backgrounds Season 2
- Glory Hole Dinners and Charity Events
- New Pener Art Exhibits
- More to come all voted by the community

**TOP SECRET**

# CONCLUSION

Buy our lovable dicks, we think they are so fucking awesome and we hope you will think they are awesome too. We look forward to having you part of our community.

Smol Team
